

MANICURE

A close-up photograph of a pair of hands with manicured nails holding a large, vibrant pink peony flower. The nails are painted with a light, pastel shade of pink. The background is a soft, out-of-focus pink, creating a cohesive and aesthetically pleasing composition.

MANICURE

Classic manicure

Manicure trimming technique, which is performed with sterilized instruments.

Hardware manicure

Manicure, which is performed with the milling attachments of the apparatus.

European manicure

Unedged manicure, when the master cleans the nail plate with a special tool.

Combined manicure

Manicure, where two types of techniques are combined at once - classic edging and hardware.

Price: from 24 BYN.

A close-up photograph of two hands, one resting on the other. The hands are adorned with a gel manicure. The nails are painted in a light, pastel shade, possibly a pale pink or mint green. The background is a soft, out-of-focus mix of light blue and pink. The text 'Long-term coverage' is overlaid on the image in a black, elegant serif font.

Long-term coverage

Gel polish has absorbed the properties of the gel, it not only has a durability that allows you to walk with the coating for 2-3 weeks, but also gives the nails additional rigidity. Gel polish strengthens the nail plate, which allows owners of thin and brittle nails to grow longer.

Price: from 31 BYN.

MEN'S MANICURE

This is a hygienic treatment for men's nails that will help them look cleaner and more attractive. Manicure for the stronger sex is used for aesthetic purposes, after which the hands look not just clean, but sleek and well-groomed. Unlike women's manicure, colored varnishes are not used here, but only special care products are used. Manicure of the stronger sex consists in removing the cuticle, shaping the nails, cleaning them, polishing them, and nourishing them with cream.

Price: from 27 BYN.

PEDICURE

In literally one pedicure session, you can maximize your health and give them a delightful appearance.

What does a salon pedicure include?

- carrying out procedures aimed at softening, moisturizing, exfoliating and disinfecting the skin of the legs;
- hygienic cleaning of feet, removal of burrs and cuticles, giving the desired shape to the nail plate;
- procedures in the form of elimination of corns and calluses;
- massage;
- design of nails.

Price: from 38 BYN.

Manicure and pedicure in 4 hands

At your disposal there will be 2 masters at the same time - one will take care of your pens, and the second will take care of your legs.

Thus, you will receive all the same high-quality and professional procedures, done twice as fast as separately.

Price: 75 BYN.

PARAFFIN THERAPY

Paraffin therapy is a care and relaxation for your hands at the same time.

Thanks to this procedure, the elasticity of the skin is restored, microcracks and peeling are removed. Your skin is hydrated and glowing with health.

Price: from 13 BYN.

Removal of wart with nitric acid

Advantage of nitric acid: leaves no marks, scars, painless procedure, fast in time.

Complete removal of the wart depends on its size (from 1 procedure to complete restoration of the skin pattern). The removal procedure is repeated every 2 weeks.

Price for "turnkey warts" 86 BYN.

The client pays a one-time fee, regardless of the number of warts and their size. And he walks until the warts disappear completely.

Or one-time (from 11 to 22 BYN. Depending on the size, but in this case he pays for each wart)

The procedure can be repeated up to 5 times.

A green fern frond is positioned in the upper right corner of the image, resting on a white, textured towel. The background is a soft, out-of-focus green, suggesting a natural setting. The overall composition is clean and professional, with a focus on natural elements and hygiene.

Highest level security

We understand how important it is to be confident in reliable health protection. We take all precautions:

- 1. Each master has personal protective equipment. Masks and gloves are changed after each client.**
- 2. Thorough sterilization of all instruments - with temperature and antiseptic solutions.**
- 3. Availability and use of kraft bags and tool dryers.**
- 4. Use of disposable products (towels, rugs and sheets).**
